

Climate and surface and ground-water in the Baltic region – variability, trends, and impacts

Friday, 10 March 2023

Data and models (11:35 - 12:50)

time	[id] title	presenter
11:35	[15] Groundwater levels in the Baltic states: from data curation to revealing patterns	BIKŠE, Jānis
11:50	[12] Application of satellite and reanalysis precipitation for hydrological modeling in data-scarce Porijõgi catchment, Estonia	MOGES, Desalew Meseret
12:05	[10] Don't forget about snow when modeling hydraulic head time series in the Baltic countries	JEMEĻJANOVA, Marta
12:20	[3] Determination of hydrological drought by daily water level data	NAZARENKO, Serhii
12:35	[4] A New Tool for Climatic Information on Municipality Scale in Latvia	Mr ZANDERSONS, Viesturs
