

Geodynamics and Geospatial Research 2024

Thursday, 30 May 2024 - Thursday, 30 May 2024

Jelgavas str. 3

82nd International Scientific
Conference of the
University of Latvia 2024

Book of Abstracts

Contents

Seismic Moment Tensor and Focal Mechanism of the Mw3.3 Earthquake of May 11, 2021 in the Kyoto-osaka Border Region Determined by Waveform Inversion	1
Features of Tectonic Stress in the Eastern Baltic Region	1
Model Predictive Control for Autonomous Flights of Drones	1
Enhancing Efficiency Through Geospatial Data-Driven Territorial Reorganization	1
Developments on Networks RTK availability in Estonia	1
On the Movement of GPS Positioning Discrepancy Clouds	2
Affection of the Gps Signal L5 on Multipath Error Mitigation in Differential Positioning Solutions	2
On Positional Astrometric Observations of Various Space Objects in GGI	2
On Accuracy of Vertical Deflection Measurements by Digital Zenith Camera Vesta	2
A Test of Height Transfer Using Digital Zenith Camera Vesta and Gns Measurements	3
Recent Advances at the Riga SLR Station	3

3

Seismic Moment Tensor and Focal Mechanism of the Mw3.3 Earthquake of May 11, 2021 in the Kyoto-osaka Border Region Determined by Waveform Inversion

Author: Dmytro Malytsky¹

Co-authors: Andriy Gnyp¹; Jiří Málek²; Kimiyuki Asano³; Lucia Fojtikova²; Miroslav Hallo³; Oleksandra Astashkina¹; Ruslan Pak¹; Valērijs Ņikuļins⁴; Vasyl Ihnatyshyn⁵

¹ *CB IGPH NAN Ukraine*

² *Institute of Rock Structure and Mechanics, Academy of Science of the Czech Republic*

³ *Disaster Prevention Research Institute, Kyoto University, Japan*

⁴ *Geo Consultatns, ltd, Latvia*

⁵ *Ferenc Rákóczi II Transcarpathian Hungarian Institute, Ukraine*

Corresponding Author: dmalytsky@gmail.com

4

Features of Tectonic Stress in the Eastern Baltic Region

Corresponding Author: seismolat@gmail.com

5

Model Predictive Control for Autonomous Flights of Drones

Author: Felix Vortisch¹

Co-author: Reiner Jäger¹

¹ *Hochschule Karlsruhe - Technik und Wirtschaft, Germany*

Corresponding Author: fe.vortisch97@web.de

6

Enhancing Efficiency Through Geospatial Data-Driven Territorial Reorganization

Author: Peteris Daugulis¹

¹ *Daugavpils University*

Corresponding Author: peteris.daugulis@gmail.com

7

Developments on Networks RTK availability in Estonia

Author: Harli Jürgenson¹

¹ *University of life sciences, Estonia*

Corresponding Author: harli.jyrgenson@emu.ee

8

On the Movement of GPS Positioning Discrepancy Clouds

Author: Jānis Balodis¹

Co-authors: Ansis Zariņš²; Madara Normanda²

¹ *University of Latvia, Institute of Geodesy and Geoinformatics*

² *Institute of Geodesy and Geoinformatics of University of Latvia*

Corresponding Author: janis.balodis@lu.lv

9

Affection of the Gps Signal L5 on Multipath Error Mitigation in Differential Positioning Solutions

Author: Mohamed Abdelhamid¹

Co-author: Kamil Maciuk²

¹ *AGH University of Krakow, Poland; Helwan University, Cairo, Egypt*

² *AGH University of Krakow, Poland*

Corresponding Author: mashraf@agh.edu.pl

10

On Positional Astrometric Observations of Various Space Objects in GGI

Author: Diana Haritonova¹

¹ *Institute of Geodesy and Geoinformatics, University of Latvia*

Corresponding Author: diana.haritonova@lu.lv

11

On Accuracy of Vertical Deflection Measurements by Digital Zenith Camera Vesta

Author: Ansis Zariņš¹

Co-authors: Augusts Rubans¹; Inese Vārma¹

¹ *Institute of Geodesy and Geoinformatics of University of Latvia*

Corresponding Author: ansiszx@inbox.lv

12

A Test of Height Transfer Using Digital Zenith Camera Vesta and Gns Measurements

Author: Inese Varna¹

¹ *Institute of Geodesy and Geoinformatics of University of Latvia*

Corresponding Author: inese.varna@lu.lv

13

Recent Advances at the Riga SLR Station

Author: Kalvis Salmins¹

Co-authors: J Kaulins ; J del Pino ¹; S Melkov ¹

¹ *Institute of Astronomy of University of Latvia*

Corresponding Author: kalvis.salmins@lu.lv
