

3rd FORTHEM international conference: Democratic & Responsible Bio Innovation

Thursday, 12 March 2026

Sustainable Bioeconomy & Nature Based Solutions (14:00 - 16:10)

time	[id] title	presenter
14:00	[55] Sustainable bioeconomy must be democratic, not just efficient	OTTAVIANI AALMO, Giovanna
14:20	[30] Sequential inoculation strategies in malolactic fermentation: impact on fermentation kinetics and volatile compounds in Catarratto wines	DOLCE, Irene
14:30	[24] Waste-to-Hydrogen: Experimental Green Hydrogen Generation for Circular and Responsible Bio-Innovation	ISARIE, Claudiu
14:40	[41] Use of Lachancea thermotolerans strains for modulation of acidity and aroma in Sicilian Syrah wines	Dr NASELLI, Vincenzo
14:50	[26] Circular microbial biotechnology for improving colour and aroma in rosé wines produced in warm climates	VELLA, Azzurra
15:00	[28] From circular economy to social innovation: ecosystem governance and marine by-products valorisation in Sicily	MARCHAN GONZALEZ, Michelle Magriet PERGOLIZZI, Valerio
15:10	[27] Promoting Sustainable Development of Local Fishery Products Through Responsible Bio-Innovation and Technological Advancement	AIELLO, Alessandra Ms NGUYEN, Thuong
15:20	[4] Enzymatic Coagulation of Chickpea-Based Plant Beverage Using Artichoke-Derived Enzyme	Ms SAMMOUD, sarra
15:30	[19] Coastal Circular Bioeconomy Models: Valorization of Algal Biomass for Democratic and Responsible Bio-innovation	RUGGERI, Lorenzo Maria
